

DECEMBER 2025

## CEO'S MESSAGE

WSSP's journey towards success continues consistently, step-by-step with discipline and without wasting time. Management and staff are active taking steps to climb the ladder of achievements. Being run by a team of highly skilled and experienced professionals, WSSP always looks for innovations to modernize services delivery system; and ingenuity to address the loopholes in the existing one. Whether it is construction of Khyber Pakhtunkhwa's first-ever sanitary landfill cell, installation of Supervisory Control and Data Acquisition (SCADA) or water testing devices on our tube-wells, WSSP has now completed a research project by indiginously manufacturing

water testing equipment. The system has been developed by experts of University of Engineering & Technology, Peshawar in close consultation with WSSP. It is another milestone for provision of potable water to the people of Peshawar besides an important one to put brake on water borne diseases. WSSP has formally taken over the system. With the system water quality parameters like temperature, pH, Turbidity, Total Dissolved Solids (TDS)/ Salinity, Resistivity, Electrical Conductivity, Dissolved Oxygen, and Dissolved Carbon Dioxide be tested to ensure that water supplied is safe for consumers. Water

quality is a sensitive matter, WSSP is making all efforts to provide safe drinking water to all consumers, for this, monthly 100 tests are conducted, rusted water distribution pipeline is being replaced gradually alongside close monitoring of the water distribution network. With the new system WSSP will be able to test and check water quality in a short span of time. Physiochemical result will now be ready real time while biological result will be available in seven hours instead of 18 to 24 hours. Alongside quality monitoring and testing WSSP is also taking administrative steps to stop & control contaminating water at the users end. Water is safe at source level; however,

illegal connections are the main cause leading to contamination. Teams are working regularly to bring illegal connections under net, which will not only increase revenue but will control contamination also. WSSP is providing more than 50-million-gallon water daily. Without water there is no life, every citizen must realise and play role to save water, stop wastage, register illegal connection and pay bill on time. WSSP has also engaged religious scholars and elected representatives in sensitizing community to use water and stop wastage. Let's put hands together to preserve water for a better future of the country and coming generations.

**Yasir Ali Khan (PMS)**

## Secretary Local Government Visits WSSP

Secretary for Local Government Elections and Rural Development Zafar-ul-Islam visited Water and Sanitation Services Peshawar (WSSP) reviewed the company's mandate, operations, financial and administrative affairs. Chief Executive Officer Yasir Ali Khan briefed him on sanitation, water supply and sewerage services, as well as the company's financial, administrative, and operational matters, achievements to date, future initiatives, awareness campaigns, door-to-door waste collection, safe disposal of solid waste, and existing challenges. CEO stated that the scope of the door-to-door waste collection campaign has been expanded, efforts to increase revenue and register illegal connections have been

accelerated with positive results, optimal use of available resources is being ensured, solid waste billing has been initiated, and electricity fuel expenses have been reduced. The Secretary expressed satisfaction over the performance and directed further improvements. He appreciated door-to-door waste collection campaign and advised steps to increase revenue, introduce inter-zone competition to improve services, and expand model streets to other areas. He also directed that WSSP's dashboard be shared with other WSSCs and TMAs through an agreement facilitated by the Local Government Department, which would generate revenue for WSSP.

## DECEMBER AT A GLANCE

|                               |             |
|-------------------------------|-------------|
| Water Production              | 50.75 MGPD  |
| Water Quality Tests           | 100         |
| Solid Waste Collected         | 15,155 Tons |
| Road Sweeping                 | 4,902 KM    |
| De-Siltation of Manholes      | 3,184       |
| De-Siltation of Drains        | 436 KM      |
| Sewer System Unblocking       | 550         |
| Complaints Redressal Rate     | 95.14 %     |
| PCP Complaints Redressal Rate | 63 %        |
| PCP Satisfaction Level        | 59.20 %     |

## WSSP Management Participates in Christmas Celebrations

WSSP management celebrated Christmas with the Christian community at St. John's Catholic Church, Kohati. On this occasion, CEO Yasir Ali Khan, along with SSP Operations Farhan

Khan, cut the cake with the Christian community. Officials from WSSP and Capital City Police Peshawar were also present. Father Tariq Mahmood said, "We are deeply grateful to WSSP,

like previous years, WSSP stood shoulder to shoulder with us during Christmas. We sincerely thank CEO Yasir Ali Khan and his entire team." The Christian community appreciated this

positive tradition, stating that such initiatives are strong means of promoting interfaith harmony and peace. Prayers were offered for peace, unity, and national progress.

DECEMBER 2025

## Advanced Testing System Developed for Water Quality Testing

An advanced testing system has been developed to ensure supply of clean water to consumers. The modern, feature-rich Remote Quality Monitoring and Testing System has been jointly developed by the Center for Intelligent and Network Research, University of Engineering and Technology (UET) Peshawar and WSSP. It is a testament to the innovation and capability of UET Peshawar experts and will eliminate the need to spend

thousands of dollars on importing expensive equipment. The locally developed system was handed over to WSSP CEO Yasir Ali Khan by Dr. Zeeshan Shafiq of Innovative Solutions and Networks Research, GM Operations Muhammad Ijaz, GM Planning Syed Zamir-ul-Hassan, GM Projects Dr. Mehboob Alam, Engineer Musa Khan, and Engineer Adil Shah were present on this occasion. Through this system, water quality can be tested in a short

time with accuracy. Physicochemical test results will be available in real time, while biological tests will take seven hours—which previously took 18-24 hours with imported equipment. The system can detect acidity, temperature, turbidity, total dissolved solids, minerals such as calcium and magnesium, salinity, electrical resistivity and conductivity, dissolved oxygen and carbon dioxide, as well as disease-causing germs and bacteria.

UET experts also trained WSSP water supply managers and water quality staff on system usage. CEO Yasir Ali Khan termed the system significant, stating that every effort is being made to provide consumers with clean, quality drinking water. Daily testing is conducted, and the installation of this system will further improve water quality—an important step toward ensuring safe drinking water for consumers.

## WSSP Board's HR and Finance Committees meeting held

A meeting of the WSSP Board of Directors' HR Committee was held under the chairmanship of Gul Zada Khan, attended by committee members Ilyas

Khan, Gul Badshah, Malik Adil, Saleem ur Rehman (online), CEO Yasir Ali Khan, GM HR Saqib Nawaz, Local Government Department representative Azam Khan, and Company Secretary Nusrat Ali Shah. Various matters were discussed. The Finance Committee meeting was held under the chairmanship of Ilyas Khan, with members Muhammad Shahid Ahmed, Gul Badshah, Gul Zada Khan, Tahira Yasmeen, CEO Yasir Ali Khan, and Talat Fahad from the Khyber Pakhtunkhwa

Finance Department in attendance. The company's financial affairs were reviewed.

## WSSP Observes International Anti-Corruption Day

WSSP observed International Anti-Corruption Day. Awareness banners were displayed in offices and a walk was organized. On the occasion, a management meeting chaired by CEO Yasir Ali Khan was held which reviewed the implementation of anti-corruption measures and expressed satisfaction that strict oversight is being maintained at all levels, with strengthened checks and balances in operations.

Management reaffirmed a zero-tolerance policy against corruption, stating that no compromise would be made. It was informed that strict monitoring is in place at every level, all procurements are carried out in accordance with Khyber Pakhtunkhwa Public Procurement Regulatory Authority (KP-PPRA) rules, and no leniency will be shown toward anyone involved in corruption. All information and accounts are

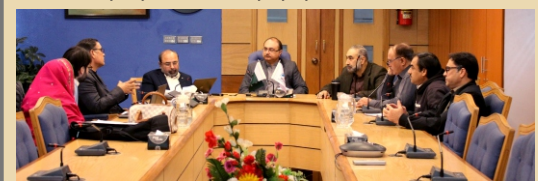

transparent, and any citizen can obtain information under prevailing laws.

**SAY NO TO CORRUPTION**

## UNICEF Delegation Meets WSSP Management

A delegation from UNICEF met CEO WSSP Yasir Ali Khan and management officials. The delegation included Dr. Hassan Nasir, Rehmanullah, Nosheen Malik, and others. GM Planning WSSP Syed Zamir-ul-Hassan, GM Projects Dr. Mehboob Alam, and Chief Financial Officer Haider Ali were also present and assisted CEO. Both sides discussed mutual matters with focus on solid waste utilization, recycling, and water supply. The delegation was briefed on WSSP's planning and three different models of generating revenue from solid waste. The potential areas of cooperation between the two organizations were discussed. Areas where UNICEF could provide support were identified. The delegation assured technical assistance and said links would be established between WSSP and donor agencies to attract further support for improving services for Peshawar's citizens. It was agreed to continue discussions and prepare a concept paper to move forward.

## Ceremony in Honor of Zone-B and Zone-C Staff

Peace and Justice Human Rights Organization, in collaboration with the WSSP CLC team, distributed health kits among sanitation workers serving in Union Council 10, Zone-B. These hardworking workers play a frontline role day and night in keeping the city clean, protecting public health, and enhancing Peshawar's beauty. Board Chairman Malik Shahab Hussain and Zonal Manager Aamir Gul Khattak attended the ceremony and paid tribute to the workers' tireless efforts, stating that sanitation staff are the real heroes and measures are being

taken for their welfare, health protection, and encouragement. The sanitation workers expressed happiness over the distribution of health kits, saying it would further motivate them. Meanwhile a ceremony was held in Pawaka in honor of WSSP Zone-C staff, where community elders Usman Khalil, Iqbal Khalil, and Maulana Ghulam Sarwar appreciated staff performance and distributed certificates among workers. Local residents, Solid Waste Manager Zone-C Muhammad Saeed, and other officials attended the ceremony.
